DERRY DAVIS.

VEGETABLE PAIN KILLER, The Great Family Medicine of the Age. #2 We ask the attention of the trade and the public to this long unrivalled Family Medicine. For the cure of Colds, Coughs, weak Stomach, General Debility, Indigestion, Cranip and Pain in the Stomach, Bowel Complaint, Colic, Diarrhora, &c; and for Fever and Ague there is nothing better.

It has been favorably known for more than twenty

years to be the only sure specific for the many dis-cases incident to the human family. Internally and externally it works equally sure. What stronger proof of these facts can be pro-duced than the following letter received, unsolicited,

from Rev. A. W. Curtisa Romeo, Macomb Co., Mich., July 9, 1860. Messrs, J. N. Harus & Co.—Gents:—The confidence I have in Perry Davis' Pain Killer for coughs, colds, burns, sprains and rhoumatism, for the curo of which I have successfully used it, induces me to cheerfully recommend its virtues to others. A few months since I had recourse to it to destroy a felon; although I had never heard of its being used for that purpose, but having suffered intensely from a former one, and having no other remedy at hand, I applied the Pain Killer for about fifteen minutes in applied the Fain Killer for about lifteen minutes in
the evening, and repeated the applicacation briefly
in the morning, which entirely destroyed the felon
and increased my confidence in the utility of the
remedy. Yours truly. A. W. CURTISS,
Minister of the Wesleyan Methodist Church.

The Pain Killer has been tested in every variety of climate, and by almost every nation known to Americans. It is the almost constant companion and inestimable friend of the missionary and traveler, on sea and land, and none should travel on our lakes and rivers without it. He sure you call for and get the genuine Pain Killer, as many worthless nostrums are attempted to be sold on the reputation of this valuable medicine.

BLOOD PURIFIER AND BLOOD PILLS.

DR. ROBACK'S SCANDINAVIAN REMEDIES. When Dr. Roback, the renowned Swedish Physician, introduced his Blood Purifier and Pills into the United States, he set forth in plain terms their curative properties. This was years ago. The task of recommending them has since been taken out of his hands. Enlightened men, whose character for sound judgment and philosophy gives their opinions weight in the community, men who observe, reflect and make "assurance doubly sure," before they de-cide, are everywhere approving and urging the use of these wonderful preparations. All who confide in the wisdom and honesty of this class, or who choose to investigate for themselves, are now of one

mind on this important subject.

The evidence in the possession of Dr. Roback which is at all times accessible to the public, estab-

That the BLOOD PURIFIER and BLOOD PILLS have been proved by analysis to CONTAIN NO MINERAL ! That they cure the almost universal complaint,

Dystersta, with unerring certainly, and in a very short time. That after all other medicines have proved useless they relieve LIVER COMPLAINT, and restore the health and strength of the sufferer. That SIGE FEMALES, who have languished for years in helpless weakness and despendency, recuperate with almost mira-culous rapidity under their invigorating operation. Sexual Disabilities are removed by their cordial and gently stimulating properties. That they recruit SHATTERED CONSTITUTIONS, however, they may have been trifled with and abused. That their direct tendency is to lengthen life, and render it enjoyable. That operating directly upon the poison of disease in the blood, they

OR SECRETIONS, in which they do not give prempt relief, and, (if administered before the very citadel of life has been ministered before the very cliader of the has been invaded,) effect a painless and perfect cure.

Bear in mind that the Scandinavian Blood Pills are endorsed by the experience of thousands of living who, letter, affidavit, medical works and word of mouth proclaim them to be the very best preparation ever effects to the broken down victims of ill-health. It haunts disease through every avenue and organ of the system, and expels it thoroughly

and permanently.

No one can doubt their superiority after one single trial—they are not only better, but also cheaper than any other Pills, for it takes a less number of than any other 1911s, for it takes a less number of them to produce a better effect.

MY THEORY AND TREATMENT Are new and different from any one in the United States, and I challenge any one to produce the same success that I have met with in treating Chronic Diseases. My theory is based upon the chemical operations of the body, believing diseases to depend upon a disproportioned Condition of the fluids of the body, whereby the solids be come unhealthy by analysing the secretions, blood, &c., of the body, and finding out what is deficient or in excess and supplying to the system what is wanting. I am enabled to cure often by a small amount of medicines, where the patient has been drugged with medicines for long years to no effect.

By the timeby expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul cruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is ob-structed and sluggish in the veins; cleanse it whonever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of

life is disordered or overthrown. Sarsaparilla has, and deserves much, the reputation of accomplishing these onds. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla,

or any thing else. During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatev-er. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with importion and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on

USE LADD, WEBSTER & CO.'S TIGHT STITCH SEWING MAGHINE!

The Stitch Alike on Both Sidon. The Ladd. Webster & Co.'s Machines are of the most substantial make and elegant finish, are strong, reliable, simple in construction, easily operated, by a novice, and with ordinary care, last years without the annoying expense of reparing always incurred on the cheaper, less reliable and more complicated machines.

There is no instrument in use for sewing, capable of doing a greater driety of work than these machines; with the celebrated wheel feed they will handle the finest muslin, the heaviest broadcloth, or will work in the thickest leather used by shoomakers, or carriage trimmers. They will also run over soams and gathers with the same facility as overplain work. The stitch made from them is by two threads, alike on both sides of the fabric leaving no ridge on the under side to wear out and loosen the work, a decided fault with all loop or chain stitch machines.

the work, a decided fault with all loop or chain stitch machines.

The needles are not curved and liable to brake, but are straight and have a perpendicular motion, which is absolutely necessary to adapt the machine to all sortsof work. They will bind with a binder and him with a hemmer; will stitch, fell and gather; are fully licensed under "Howe's Extended Patent," and are free from all infringements. During seven years of use they have won enviable reputation of being "the best family and manufacturing machine in the country."
